No Skidding®
PORCELAIN ANTI-SLIP
FLOOR TREATMENT
PORCELAIN FLOOR TILE #80378

Porcelain Anti-Slip Floor Treatment #80378 For Porcelain Floor Tile

The Long-Lasting Answer To The Problem Of Dangerous, Slippery When Wet Porcelain Floor Tile

- A clear chemical treatment that increases the co-efficient of friction and the safety of the surface when wet.
- Helps reduce slip injury on porcelain tile floors.
- Easy application and low odor.
- Should not noticeably alter the appearance of the surface.
- One application lasts up to five years.
- The only treatment system in the world available in custom formulations for:
 - Porcelain Tile #80378.
 - Regular, most natural stones #90378.
 - Heavy duty cement floors & similar #50378.

A clear chemical treatment that increases the coefficient of friction on porcelain floor tile, thereby increasing the safety of the surface when wet. No Skidding® Anti Slip Treatment helps reduce slip and fall injury. The product has easy application features and low odor. It should not noticeably alter the appearance of the surface. Should not adversely affect the maintenance of the surface.

Approved by Agri-Foods Canada for use in food processing facilities.

Typical Applications:

Restaurants, hotels, motels, supermarkets, hospitals, nursing homes, factories, food processing plants, health clubs, shopping malls, office buildings, swimming pool decks, bathroom floors, showers and staircases. No Skidding® Anti Slip Porcelain Treatment can be used indoors and outdoors.

What is No Skidding® Porcelain Treatment?

No Skidding® Porcelain Treatment is a water based, low odor, colorless liquid. It is not a coating that can wear and that requires repeated re-application.

Formulated to be a quick, easy application on porcelain tile floors. It is simply mopped onto the clean floor using a lambswool applicator. The floor is kept wet with the Treatment, usually for 10 minutes, and then rinsed away with clean, cold water. This simple process will increase the coefficient of friction and will typically be effective for up to 5 years with the one application. The floor can be put back into use immediately. There is no cure time as with coatings.

This process was used at the Hong Kong International Airport in June 1998 on the tile in the passenger concourse, which receives approx. 85 million passengers annually.

How does No Skidding® Treatment work?

All natural stone contains small amounts of silica. No Skidding® Anti Slip Treatment is carefully formulated to dissolve a controlled amount of the silica so as to create thousands of minute, shallow indentations in the surface. This profile is so subtle that it cannot be felt or seen. Because the profile sits BELOW the level of the surface, it does not affect the cleaning process as with a profile that stands ABOVE the surface such as an anti slip paint coating.

Shopping Mall, Toronto

When the surface is wet with water, these shallow indentations fill. When a pedestrian walks across the wet surface and their shoe starts to slide, the water is squeezed out of the indentations turning them into thousands of suction cups that help the shoe from slipping.

All that is required of the property owner is good housekeeping to keep the floor free of soil accumulation and grease.

No Skidding® Treatment is a simple, very low cost and low maintenance method of boosting floor safety, yet maintaining good gloss levels.

Porcelain Pool Deck, Leading Hotel, Barbados

**ORIGINALS AVAILABLE
ON REQUEST**

"After much research we tried your Anti-Slip floor treatment with incredible results. Not only is the product invisible to the eye, but also the surface when wet has absolutely no slipperiness to it. I also have found that it is very easy to keep clean without losing the Anti-Slip surface properties. Your Anti-Slip product made our bathtubs safer for our residents."

-U.S. State Facilities Mgt.

"The early part of this year we encountered problems with slippery bathtubs. In March we treated all 346 bathtubs with the "No Skidding®" product. It worked "Great". To date it has eliminated this potentially hazardous condition. I would recommend the product anytime."

-Major Hotel Group

"We initially tried it on our bathtub to see if No Skidding® worked. We were pleasantly surprised. It went on easily, had no obnoxious odor. We were amazed! No Skidding® really meant no skidding. Since then we use it on all our guest showers and on the tile floor in our Hot Tub area. Now we know that our guests are safe from slipping and falling. Thanks for the great product."

-Resort Hotel

"I would like to thank your company for providing the solution to a problem we have had for 30 years! We are located in New York. We have a number of tile floors throughout the facility including polished Italian marble tiles in our Suite bathrooms. Besides normal "wet spots" due to spillage or tracking rain water around, we have to deal with the snow, ice, and salt associated with our long winters. We have spent an extraordinary amount of money defending against (and settling!) slip and fall suits over the years. In less than 8 hours we solved all of the problems in our "problem" areas - easily and permanently. It is literally quite impossible to slip and fall now!"

-A Major New York State Resort

World-Wide Usage

No Skidding® Anti-Slip Treatment is in use in over 40 countries around the world including mass transit, airports and by most North American hotel chains.

Innovative Technology

Formulated to be non-aggressive on fine porcelain tile.

No Complicated Mixing

Supplied ready to use! Simply pour into a plastic pail and mop onto floor. One gallon will treat over 400 sq. ft. Lambs wool applicator recommended.

Grout Cleaner

Helps draw out ingrained soil in grout lines.

Leading Technology Cleaners

For on-going maintenance, we recommend No Skidding® On Guard, a highly concentrated cleaner & degreaser that removes dirt rapidly by breaking the electrostatic bond between the soil and the hard surface. Self-neutralizing. Helps prevent emulsification of grease into a slippery residue on the floor. Removes hard caked on grease.

Easy Application

#80378 is ready to use. Quick and easy to apply after testing. Simply clean floor, pour Treatment into a pail and apply. Keep surface damp for the recommended time then rinse away. There is no curing period; the area may be used immediately after application. One gallon will treat over 400 sq. ft. The treatment is not affected by chlorine, acids, or alkalis. Very cost effective. Meets co-efficient of friction requirements for ASTM, OSHA, ADA, Canadian and U.S. Government industrial safety standards. Approved by Agri-Foods Canada for use in the food industry.

Always follow directions for use on label and use tools recommended. This product cannot eliminate the possibility of slipping

PLEASE READ AND FULLY UNDERSTAND LABEL AND MSDS BEFORE USING.
